

REQUEST FOR QUALIFICATIONS (RFQ) FOR CONSULTING LAND USE PLANNING SERVICES

RESPONSES TO QUESTIONS RECEIVED – ROUND 2

Date:
SEPTEMBER 25, 2018

Deadline for Submission:
SEPTEMBER 28, 2018, 5:00 P.M. (No Change)

Below are responses to questions received after September 13, 2018 regarding the RFQ.

- 1. My firm subs out to other firms who provide technical and scientific services that I do not provide. Since many of these firms will not be submitting qualifications to the City in response to this RFQ for land use planning services, will the City allow the selected consultants to select technical subconsultants that are not on the City's list of qualified firms?**

The City encourages respondents to include potential subconsultants as part of their Statement of Qualifications.

- 2. We located the City's 2018-2019 Work Program online and are wondering if the projects listed in that document are potential/current projects the City anticipates being included in potential scopes for future RFP's? Additionally, are there any potential projects the City is anticipating that are not listed in the published Work Program?**

The City is focused on this Request for Qualifications at this time. Please respond based on the Request for Qualifications solicitation released on August 30, 2018.

Note: The City will respond to any questions regarding this Request for Qualifications submitted by 5:00 P.M. on Tuesday, September 25, 2018.
