Bicycle and Pedestrian Master Plan

NOTICE IS HEREBY GIVEN that the Goleta Planning Commission will conduct a public hearing to consider a Resolution recommending to the City Council adoption of the Bicycle and Pedestrian Master Plan. The date, time, and location of the public hearing are set forth below.

PROJECT DESCRIPTION: The City of Goleta's 2018 Bicycle and Pedestrian Master Plan (BPMP) is a general planning document that assesses existing conditions and identifies possible improvements to the City's street network to enhance pedestrian and bicycle travel citywide. The BPMP also implements several policies in the City's General Plan/Coastal Land Use Plan (GP/CLUP). The guidelines, design concepts and locations are conceptual in nature and do not constitute engineering level analyses of any project, but instead presents these concepts for future implementation.

As a local-level feasibility and planning study, the BPMP outlines a range of projects including Class I, II, and III bicycle lanes, sidewalk improvements, traffic signal timing and enhancements to assist pedestrians and bicyclists, and traffic calming devices throughout the City within the public rights-of-way. Projects from the BPMP will be developed and constructed when Council directs project funding and prioritization. This process will occur over the next ten to twenty years. When required and depending on the location and scope of each project, project-specific CEQA analyses will be performed for the future projects.

The Plan is exempt from the provisions of the California Environmental Quality Act (Public Resources Code, §§ 21000, et seq., "CEQA") and the regulations promulgated thereunder (14 Cal. Code of Regulations, §§ 15000, et seq., the "CEQA Guidelines") Statutory Exemption §15262 [Feasibility and Planning Studies], which, pursuant to §15374, requires only the filing of a Notice of Exemption.

PROJECT LOCATION: The plan would apply citywide.
