

# LED Street Lighting Project

## PROJECT NO. 9056

Addendum No. 1  
January 8, 2019

**NEW Qualifications Opening: Thursday, January 17, 2019 at 3:00 P.M.**

**1. ADD:**

**SECTION V, PROJECT SUBMITTAL REQUIREMENTS, PAGE 5.** A new requirement for submittal has been added after subsection H. The following change has been made:

**I. Licenses**

Any contractor or subcontractor placing, installing, erecting or connecting any electrical wires, fixtures, appliances, or apparatuses is required to have a C-10 contractors license to submit qualifications for this project.

**2. DELETE:**

**SECTION V, PROJECT SUBMITTAL REQUIREMENTS, PAGE 4**

**DELETE:** Consultant shall provide an example of a similar study prepared by the firm or proposed team.

**3. DELETE/ADD:**

**ATTACHMENT 1, SAMPLE AGREEMENT, SECTION 10.**

**DELETE:**

a) Insurance Services Office Commercial Liability coverage "occurrence" form CG 00 01 or its exact equivalent with an edition date prior to 2004 and with minimum limits of \$1,000,000 per occurrence and \$2,000,000 in the aggregate.

b) Insurance Services Office form number CA 00 01 or equivalent covering Automobile Liability, including hired and non-owned automobile liability with a minimum limit of \$1,000,000 per accident. If the Service Provider owns no vehicles, this requirement may be satisfied by a non-owned and hired auto endorsement to Service Provider's commercial general liability policy.

**ADD:**

a) Insurance Services Office Commercial Liability coverage "occurrence" form CG 00 01 or its exact equivalent with an edition date prior to 2004 and with minimum limits of \$5,000,000 per occurrence and \$5,000,000 in the aggregate.

b) Insurance Services Office form number CA 00 01 or equivalent covering Automobile Liability, including hired and non-owned automobile liability with a minimum limit of \$4,000,000 per accident. If the Service Provider owns no vehicles, this requirement may be satisfied by a non-owned and hired auto endorsement to Service Provider's commercial general liability policy.

**4. ADD:**

**ATTACHMENT 2 – SELLABLE INVENTORY.** This attachment provides more details, specifically the quantities, types of lamps, and types of fixtures for all street lights.

**5. DELETE:**

**SECTION IV, SCOPE OF SERVICES, PHASE 3.** The City will no longer be including maintenance services as a part of this project proposal. Maintenance of City-owned LED street lights will be at a future date. Contractors are welcome to submit bids at that time for the maintenance phase.

**6. BIDDERS QUESTIONS AND ANSWERS**

Q1: Please confirm that the City is looking for turn-key support throughout the scope of work for this project, including materials procurement, installation, and maintenance services. If so, please confirm that a C-10 contractors license is required to bid this project.

A1: The City is looking for turn-key services throughout the scope of work for Phases 1 and 2. See Item 1 for license requirements.

Q2: Can the City please consider using a standardized cost sheet so all responders present prices to the City in the same format? Please see attached as a recommendation. This has been a standard for Turnkey LED Streetlight RFPs in the region and nationwide.

A2: This is not a bid. Our selection of consultant is not based in price. If your firm chooses to use a standard cost breakdown sheet, it can be included in your separate, sealed envelope submitted alongside the qualifications.

Q3: Does the City have its own specification for streetlight tagging or is it at the consultants recommendation?

A3: Streetlight tagging is at the consultant's recommendation. The City will ultimately approve the format.

Q4: The RFP asks for hourly rates per task but also requests turnkey material and installation which is in conflict. Can the City please confirm that turnkey unit pricing is

sufficient? Hourly rates per task when also included with material and installation is not the industry standard.

A4: Hourly rates per task is the City standard for Exhibit B – Schedule of fees in the final agreement to better track billable work.

Q5: Can the City please confirm if proposers can submit multiple manufacturers?

A5: Yes.

Q6: Can the City clarify if 10 year photocell warranties are required? Many municipalities opt against this?

A6: Yes. They are required.

Q7: Should proposers include sales tax? If so can the City please provide the tax rate that should be used?

A7: Yes. Use the Goleta tax rate of 7.75%.

Q8: Does the City have an existing streetlight maintenance contractor, or contractor who does your traffic signal maintenance, and who are they?

A8: There is currently no existing streetlight maintenance contractor.

Q9: Will the consultants be recommending LED fixtures and will there be substitutions allowed if they suggested a certain type of lighting fixture?

A9: LED fixtures chosen will be based on consultant recommendation, but ultimately will be decided at a later date by the City Council.

Q10: Will there be a staging yard available?

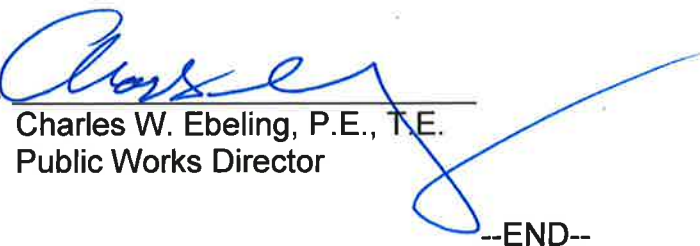

A10: No.

Q11: In Section VI.A. of the RFQ/RFP document, how much weight will be given to each of the listed evaluation criteria?

A11: All criteria are given equal weight.

Q12: Can the City supply the inventory of streetlights (quantity of lights, type of lamp, type of fixture) for proposers to accurately bid.

A12: Yes. See Item 4, Attachment 2 Sellable Inventory. Out of a total 1,576 poles, 1,337 (85%) are non-wood. The age of the system ranges from the 1950s to the present, with 973 (62%) of the total poles constructed in the 1960s. The resulting number of sellable poles is 1,296, with the majority of those consisting of Marbelite (concrete) and steel. A few of the remaining poles consist of fiberglass or wood.

Approved by:   
Charles W. Ebeling, P.E., T.E.  
Public Works Director
