

Fire Hazard Treatments

▣ Hand Clearing

Fire Hazard Treatments

▣ Thinning

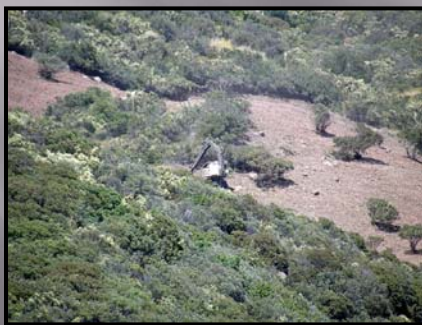

Fire Hazard Treatments

▣ Mowing

Fire Hazard Treatments

▣ Equipment Use (Mastication)

Fire Hazard Treatments

- ▣ Biological agents

How can this plan help the City and the residents?

- ▣ Better identify fire risk
- ▣ Expanded hazard treatment options:
 - Fuels
 - Structures
- ▣ Access to grants
- ▣ Stakeholder coordination
- ▣ Integration of treatments with cooperators

Tonight is about:

- ▣ Information sharing
- ▣ Forum for expressing issues and concerns
- ▣ Opportunity to share local knowledge
- ▣ Helps assure divergent voices are heard
- ▣ Public input for plan preparation

How tonight works ...

- ▣ Four "stations" to visit:
 - Wildland fire hazard and risk assessment
 - Community Wildfire Protection Planning
 - Butterfly Habitat Plan – Dr. Meade
 - Identify areas of specific concern - provide your input for this plan
- ▣ Stakeholders available:
 - Santa Barbara County Fire
 - U.S. Forest Service
 - Fire Safe Councils
 - City Staff

Developing Goals and Objectives (some possible examples)

- ❑ Assure sustainability of butterfly habitat
- ❑ Protect environmentally sensitive areas to retain beneficial habitat features
- ❑ Reduce wildland fire threat in high risk areas
- ❑ Create a low fire threat greenbelt around the city
- ❑ Change roof types to low ignitibility material
- ❑ **YOUR IDEAS?**

The Plan Will Be ...

- ❑ Scientific
- ❑ Feasible
- ❑ Balanced
- ❑ Issues, Assets and Values Driven

Goleta Wildland Fire Plan
